Tobacco Stocks Report

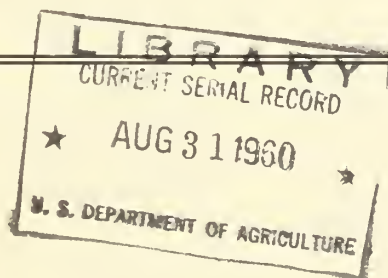

as of April 1, 1960

U. S. DEPARTMENT OF AGRICULTURE
AGRICULTURAL MARKETING SERVICE
TOBACCO DIVISION

The Tobacco Stocks and Standards Act provides for a quarterly report of tobacco stocks. These reports, based on information filed by manufacturers, dealers, and others, are prepared by the Tobacco Division of the Agricultural Marketing Service.

Stephen E. Wrather
Director, Tobacco Division.

Washington, D. C.
May 12, 1960

CONTENTS

Discussion	3- 5
Conversion factors for adjusting for losses in weight	6
Stocks of leaf tobacco, by types, converted to a FARM-SALES- WEIGHT equivalent	7
Stocks of leaf tobacco, by types and groups of grades	8-11
Summary of tobacco leaf represented in inventories of tobacco sheet	12
Stocks of leaf tobacco, by types, showing separately quantities owned by dealers and manufacturers	13
Stocks of leaf tobacco, summary by types	14

**EXPLANATION OF GROUP SYMBOLS BY TYPES OF TOBACCO
FOR PURPOSES OF THE TOBACCO STOCKS REPORT**

GROUPS OF FLUE-CURED

TYPES 11, 12, 13, and 14:

- A-Wrappers
- B-Leaf and smoking leaf
- C-Cutters
- X-Lugs and primings
- S-Scrap
- N-Nondescript

GROUPS OF FIRE-CURED

TYPES 21, 22, and 23:

- A-Wrappers
- B-Heavy leaf
- C-Thin leaf
- X-Lugs
- S-N-Scrap and nondescript

GROUPS OF BURLEY

TYPE 31:

- B-Leaf
- T-Tips
- C-Lugs and cutters
- X-Trash and flyings
- S-Scrap
- N-Nondescript

GROUPS OF SOUTHERN MARYLAND

TYPE 32:

- B-Heavy leaf or dull crop
- C-Thin leaf or bright crop
- X-Seconds and ground leaves
- S-Scrap
- N-Nondescript

GROUPS OF DARK AIR-CURED

TYPES 35, 36, and 37:

- A-Wrappers
- B-Heavy leaf
- C-Thin leaf
- X-Lugs
- S-N-Scrap and nondescript

GROUPS OF PENNSYLVANIA SEEDLEAF

TYPE 41:

- B-Binders or tops
- C-Fillers (farm wrappers)
- X-Crop-run and stemming grades
- Y-Farm fillers or ground leaves
- S-Scrap

GROUPS OF OHIO FILLER

TYPES 42-44:

- C-Fillers (farm wrappers)
- X-Crop-run and stemming grades
- Y-Farm fillers or ground leaves
- S-Scrap

GROUPS OF PUERTO RICAN

TYPE 46:

- C-Superior
- X-Inferior
- Y-Trashy (Rabia)
- S-Scrap (Picadura)

**GROUPS OF CONNECTICUT VALLEY BROADLEAF
AND HAVANA SEED**

TYPES 51 and 52:

- A-Wrappers
- B-Binders, seconds, and brokes
- C-Fillers and short darks
- X-Stemming grades
- S-Scrap

**GROUPS OF NEW YORK AND PENNSYLVANIA
HAVANA SEED**

TYPE 53:

- B-Binders, seconds, and brokes
- X-Crop-run and stemming grades
- S-Scrap

**GROUPS OF SOUTHERN AND NORTHERN WISCONSIN
TYPES 54 and 55:**

- B-Binders
- C-Fillers
- X-Crop-run and stemming grades
- S-Scrap

**GROUPS OF CONNECTICUT AND GEORGIA
AND FLORIDA SHADE**

TYPES 61 and 62:

- A-Wrappers
- B-Stout wrappers and binders
- C-Fillers or tips
- S-Scrap

GROUPS OF FOREIGN-GROWN CIGAR-LEAF

TYPES 81, 82, and 83:

- A-Wrappers
- C-Fillers
- S-Scrap

STOCKS OF LEAF TOBACCO OWNED BY DEALERS AND MANUFACTURERS 1/ 2/

Total leaf tobacco stocks down from April 1 a year ago

Stocks of leaf tobacco in the United States and Puerto Rico totaled 4,709 million pounds (farm-sales-weight) as of April 1, 1960, based on the regular quarterly reports of dealers and manufacturers. This is a decline of 132 million pounds, or 2.7 percent, from the April 1 figure a year ago (4,841 million). It marks a further reduction in overall leaf stocks, and inventories are now about 500 million pounds below the record level for this quarter (5,213 million on April 1, 1957). The 1959 crop of about 1,827 million pounds was in stocks as of April 1, with the exception of around 48 million made up of Maryland and Puerto Rican types. About 223 million pounds were marketed during the quarter.

Most of the decrease volume-wise was accounted for by lower stocks of the flue-cured and burley types; these were 5 percent and 2 percent respectively less than holdings on last April 1. Stocks of the other domestic types ranged from a little below to a little above the previous year's levels. Stocks of imported cigar leaf climbed to a record high level, partly offsetting the decrease in the holdings of the domestic types.

Stocks as of April 1, 1960, included about 778 million pounds (farm-sales-weight) of leaf tobacco under Government loans (1,025 million on April 1, 1959, and 1,053 million on April 1, 1958). These loan stocks were divided as follows: flue-cured, 570 million pounds; burley, 115 million; Maryland, 9.1 million; fire-cured, 49.0 million; dark air-cured, 20.1 million; and cigar leaf, 15.1 million.

1/ Figures quoted for type totals in this summary are the farm-sales-weight equivalent of reported stocks except foreign-grown leaf which is converted to an unstemmed equivalent basis only. (See tables in body of report for reported weight basis.) This report is issued quarterly.

2/ All Government loan stocks are reported by Grower Cooperatives, which are considered dealers for stocks-reporting purposes.

CIGARETTE-LEAF STOCKS

Inventories of flue-cured, Burley, and Maryland smaller than on last April 1
Stocks of foreign-grown cigarette leaf at record level

Flue-cured stocks totaled 2,345 million pounds as of April 1, 1960, a decrease of 112 million from holdings a year earlier (2,457 million). The crop of 1959, totaling 1,079 million pounds, was slightly smaller than the one grown in 1958 (1,081 million). Sales of 1959-crop flue-cured were completed prior to January 1, 1960.

Inventories of Burley were reported at 1,477 million pounds on this April 1--25 million less than holdings on the same date a year ago (1,502 million). Sales during the first quarter totaled about 58 million pounds, the amount of the 1959 crop of 503 million left to be sold after the Christmas holidays.

Maryland holdings as of the April 1 reporting date were 58.5 million pounds--1.8 million smaller than the amount held a year earlier (60.3 million). The 1959 crop, estimated as 33.2 million pounds, will be marketed during the May-July period this year.

Stocks of foreign-grown cigarette and smoking tobacco (Turkish and other) were 232.8 million pounds--about 1½ million over the figure reported the previous April 1 (231.6 million), and the largest holdings of imported cigarette leaf as of April 1 on record.

DARK TOBACCO STOCKS

Fire-cured inventories slightly lower
Dark air-cured down about 2 percent

Fire-cured stocks, reported at 142.1 million pounds on April 1, 1960, were 1.2 million under those reported on last April 1 (143.3 million). Decreases in the Virginia and Eastern District types were partly offset by an increase in the Western District. Marketings of the 1959 crop, completed during the first quarter, totaled 53.1 million pounds, an increase of about 10 million pounds over the record low sales of the 1958 crop (43.1 million). About 48 million pounds were sold in the January-March quarter. Virginia fire-cured stocks on this April 1 were 26.1 million pounds, Kentucky and Tennessee Eastern District, 93.5 million, and Western District, 22.5 million.

Holdings of dark air-cured, totaling 78.9 million pounds on April 1, 1960, were 1.3 million smaller than stocks on hand a year ago (80.2 million). Inventories of both One Sucker and Virginia sun-cured showed slight increases over last April 1, but these only partly offset the decrease of 2 million pounds in stocks of Green River. Sales of the 1959 crop, totaling 21.5 million pounds, were completed during the quarter, and were 3½ million larger than last year's sales (18.0 million), the smallest on record. Of the total, about 12 million was sold in the January-March period. Inventories of dark air-cured as of April 1, 1960, by types, were as follows: One Sucker, 49.4 million pounds; Green River, 23.1 million; and Virginia sun-cured, 6.5 million.

CIGAR LEAF STOCKS

Holdings of domestic cigar leaf about the same as a year ago Foreign-grown cigar leaf stocks at record level

Inventories of all domestic-grown cigar tobacco, including Puerto Rican, totaled 319.1 million pounds (farm-sales-weight) on April 1, 1960. This was a decrease of about a million pounds compared with stocks reported on last April 1 (320.2 million). Except for part of the 1959-60 Puerto Rican filler crop, all of the 1959 cigar-leaf production of 140.0 million pounds was in stocks by this April 1. Holdings of foreign-grown cigar leaf were 52.7 million pounds (unstemmed equivalent), an increase of about 10 million over stocks reported on April 1 the previous year (42.8 million), and the largest holdings of imported cigar leaf as of April 1 on record.

Holdings of cigar-filler types as of April 1, 1960, totaled 198.8 million pounds--0.3 million larger than the figure reported on last April 1 (198.5 million). Stocks of the Pennsylvania and Ohio types were slightly higher and those of Puerto Rican slightly lower than those reported a year ago. Cigar-filler leaf inventories, by types, on April 1, 1960, were as follows: Pennsylvania filler, 130.5 million pounds; Ohio, 20.9 million; and Puerto Rican, 47.4 million.

Cigar-binder stocks totaled 94.1 million pounds on April 1, 1960--a decrease of 3.3 million from inventories reported a year earlier (97.4 million). Except for a small increase in Southern Wisconsin, stocks of all binder types were down from a year ago, each by about 2 million pounds. Connecticut Valley Broadleaf stocks this April 1 were 21.1 million pounds; Connecticut Valley Havana Seed, 15.1 million; Southern Wisconsin, 26.7 million; and Northern Wisconsin, 31.1 million.

Shade-grown cigar leaf stocks of 26.3 million pounds were 1.9 million more than those reported last year (24.4 million). Stocks of both types were higher. As of April 1, 1960, holdings of Connecticut Valley Shade were 16.7 million pounds; and of Georgia-Florida Shade, 9.5 million.

Stocks of Cuban (Havana) leaf, reported at 35.4 million pounds, were up more than 11 million over last year and at a record high level. Sumatra leaf holdings were 40 thousand pounds; and Philippine Islands (Manila) stocks totaled 12.7 million pounds, about a million less than those on hand a year ago.

LEAF REPRESENTED IN STOCKS OF TOBACCO SHEET (see table 4)

Stocks represented in tobacco sheet show increase

Stocks of leaf represented in inventories of "tobacco sheet" totaled 6.2 million pounds (reporting weight) compared with 3.0 million on the previous April 1. Of the total in "tobacco sheet" this April 1, 4.3 million pounds was for use in cigarettes and smoking tobacco, and 1.9 million for cigar binder including a very small quantity for wrappers.

TABLE 1.-Average percentage of weight remaining after handling, sweating, drying, and stemming, and factors used for adjusting stocks reported by dealers and manufacturers to a farm-sales-weight equivalent, by types of tobacco 1/

SOUTHERN TYPES (11-37)

Type	Type number	Yield realized from farm-sales-weight to --				Stemming		Factors used to multiply by to convert reported stocks of		
		Packed in domestic order				Yield from actual weight at time of operation	Percent	Stemmed stocks to unstemmed equivalent	Unstemmed stocks to farm-sales-weight equivalent 2/

1/ Information in this table taken from U. S. Department of Agriculture Circular 435, Tobacco Shrinkages and Losses in Weight in Handling and Storage, issued in July 1937. 2/ Factors for converting unstemmed stocks to farm-sales weight are adjusted on the basis of an average loss on the reported weight and should not be taken as indicative of full shrinkage after handling, sweating, and storage. 3/ See footnote 2 on page 7 for conversion factors to farm-sales-weight equivalent for cigar leaf except type 46. 4/ Foreign-grown stocks not converted to farm-sales-weight equivalent.

Table 2.--Stocks of leaf tobacco owned by dealers and manufacturers, by types, converted to a farm-sales-weight equivalent, April 1, 1960, compared with other quarters 1/ 2/

FARM-SALES WEIGHT

1/ Totals include stocks of leaf reported in tobacco sheet. See separate reporting in tables 4 and 5.

2/ For factor used in converting weights see table 1 except for cigar leaf. The instructions for reporting unstemmed cigar-leaf of the domestic types require dealers and manufacturers to indicate the weight basis on which the tobacco is reported, namely farm-sales weight, marked weight, or sweated weight. The stocks are converted to the farm-sales-weight equivalent on the basis of the amount reported in these three categories. The conversion factors by types of tobacco for April 1, 1960 are as follows: Type 41, 105; Types 42-44, 112; Type 51, 105; Type 52, 106; Type 54, 105; Type 55, 106; Type 61, 109; Type 62, 113. April 1, 1960 figures subject to revision.

3/ For explanation of stocks included in this classification, see footnote 5 on page 11.

4/ Foreign-grown leaf is converted to an unstemmed equivalent basis only.

* Revisions in January 1, 1960 report.

Table 3.--Stocks of leaf tobacco, including leaf in tobacco sheet 1/, by types and, where applicable, by groups of grades, owned by dealers and manufacturers, April 1, 1960 compared with April 1, 1959, and January 1, 1960

1/ Represents leaf tobacco in stocks of reconstituted or processed tobacco sheet.

2/ Subject to revision.

3/ Summary according to groups of grades reflecting a broad quality breakdown of total cigar leaf stocks.

4/ Includes Puerto Rican on the Island, Type 46.

5/ Although Type 73 is defined as all domestic types of tobacco not otherwise classified, the bulk of the stocks reported in this type consists of cuttings, clippings, and trimmings. This is the result, in most instances, of the inability of reporters to designate cuttings, clippings, and trimmings in the "S" group of the types to which they properly belong.

6/ Does not include Sumatra and Java leaf held for sale in the Free Trade Zone.

* Revisions in January 1, 1960 report.

Table 4.--Summary of tobacco leaf represented in inventories of tobacco sheet, for cigar binder and for cigarettes (including smoking tobacco), separately 1/

^{1/} Total includes stocks of leaf reported in tobacco sheet. See separate reporting in tables 4 and 5.

^{2/} These statistics represent the quantity of leaf tobacco reported as owned by all leaf tobacco dealers, manufacturers, quasi-manufacturers, growers' cooperative associations, warehousemen, brokers, holders, and owners subject to provisions of the Tobacco Stocks and Standards Act approved January 14, 1929, and the amendments thereto passed in the 72nd and 74th Congress. The quantities owned by dealers and manufacturers have been tabulated separately on a type total basis.

^{3/} This table should be considered as representing only the approximate quantities owned respectively by dealers and manufacturers. The quantities shown as owned by manufacturers include tobacco which is held under dealer registries of manufacturers and also tobacco held by dealers and known to be purchased on order for foreign or domestic manufacturers. The quantities shown as owned by dealers may include some tobacco held by dealers which is earmarked for sale to domestic manufacturers or for export. All Government loan stocks are included as dealer holdings.

^{4/} Includes stocks on the Island of Puerto Rico.

^{5/} For explanation of stocks included in this classification see footnote 5 on page 11.

1/ Totals include stocks of leaf reported in tobacco sheet. See separate reporting in tables 3 and 4.

2/ These statistics represent the quantity of leaf tobacco reported as owned by all leaf tobacco dealers, manufacturers, quasi-manufacturers, growers' cooperative associations, warehousemen, brokers, holders, and owners except (a) the original growers of tobacco; (b) manufacturers who in the first three quarters of 1959, according to the returns of the Commissioner of Internal Revenue, manufactured less than 35,000 pounds of tobacco, less than 185,000 cigars, or less than 750,000 cigarettes, pursuant to the provisions of the Tobacco Stocks and Standards Act approved January 14, 1929, and the amendments thereto passed in the 72nd and 74th Congress.

3/ Subject to revision.

4/ For explanation of stocks included in this classification see footnote 5 on page 11.

5/ Does not include Sumatra and Java leaf held for sale in the Free Trade Zone.

* Revisions in January 1, 1960 report.
